KEY PROJECT INVESTOR

FUTURA EDGE –
the main partner, and international investment company with 16 years of experience in real estate development and a portfolio of projects in the United Kingdom, Germany, Spain, Georgia, and Ukraine.

WHY WE CHOSE DUBAI

I have been in real estate development for over 15 years.

During that time, we have delivered projects in London, Frankfurt, Barcelona, Tbilisi, and Ukraine.

Each market has its own journey and its own challenges.

But when we took a close look at Dubai, one thing became very clear: this city is not just a trend — it is a new global platform for sustainable real estate growth.

WHAT ATTRACTED US TO DUBAI

- **Transparency & Regulation:** A market with clear rules and strong government support for business
- **Economic Stability:** Consistent growth over the last 5-7 years, making it one of the most reliable markets globally
- **Standards:** Continuous movement toward higher quality and more professional real estate development

WHY ENTER SUCH A COMPETITIVE MARKET?

Because competition here isn't a threat — it's a challenge and an opportunity. It's in this kind of environment that real competitive advantages are built.

Having a presence in Dubai isn't just about local success — it's about driving growth across all our markets.

OAK YARD — SMART LIVING, LASTING VALUE

Location

- JVC, one of Dubai's most established districts
- Surrounded by real infrastructure, steady demand, and a vibrant mix of professionals, families, and expats.

Product

- Focus on one-bedroom apartments, the most in-demand format for both investors and end-users.
- Every unit includes a private balcony and efficient layouts that adapt to different lifestyles.

Infrastructure

- Spaces for work, fitness, and relaxation within one integrated community.

Advantages

- Combines style, technology, and stability in a balanced neighborhood.
- A product built for long-term value – made for living, not just speculating.

BUILDING YOUR SAFE AND STEADY INVESTMENT IN JVC

PROSPECTIVE METRO LINE FOR THE JVC AREA

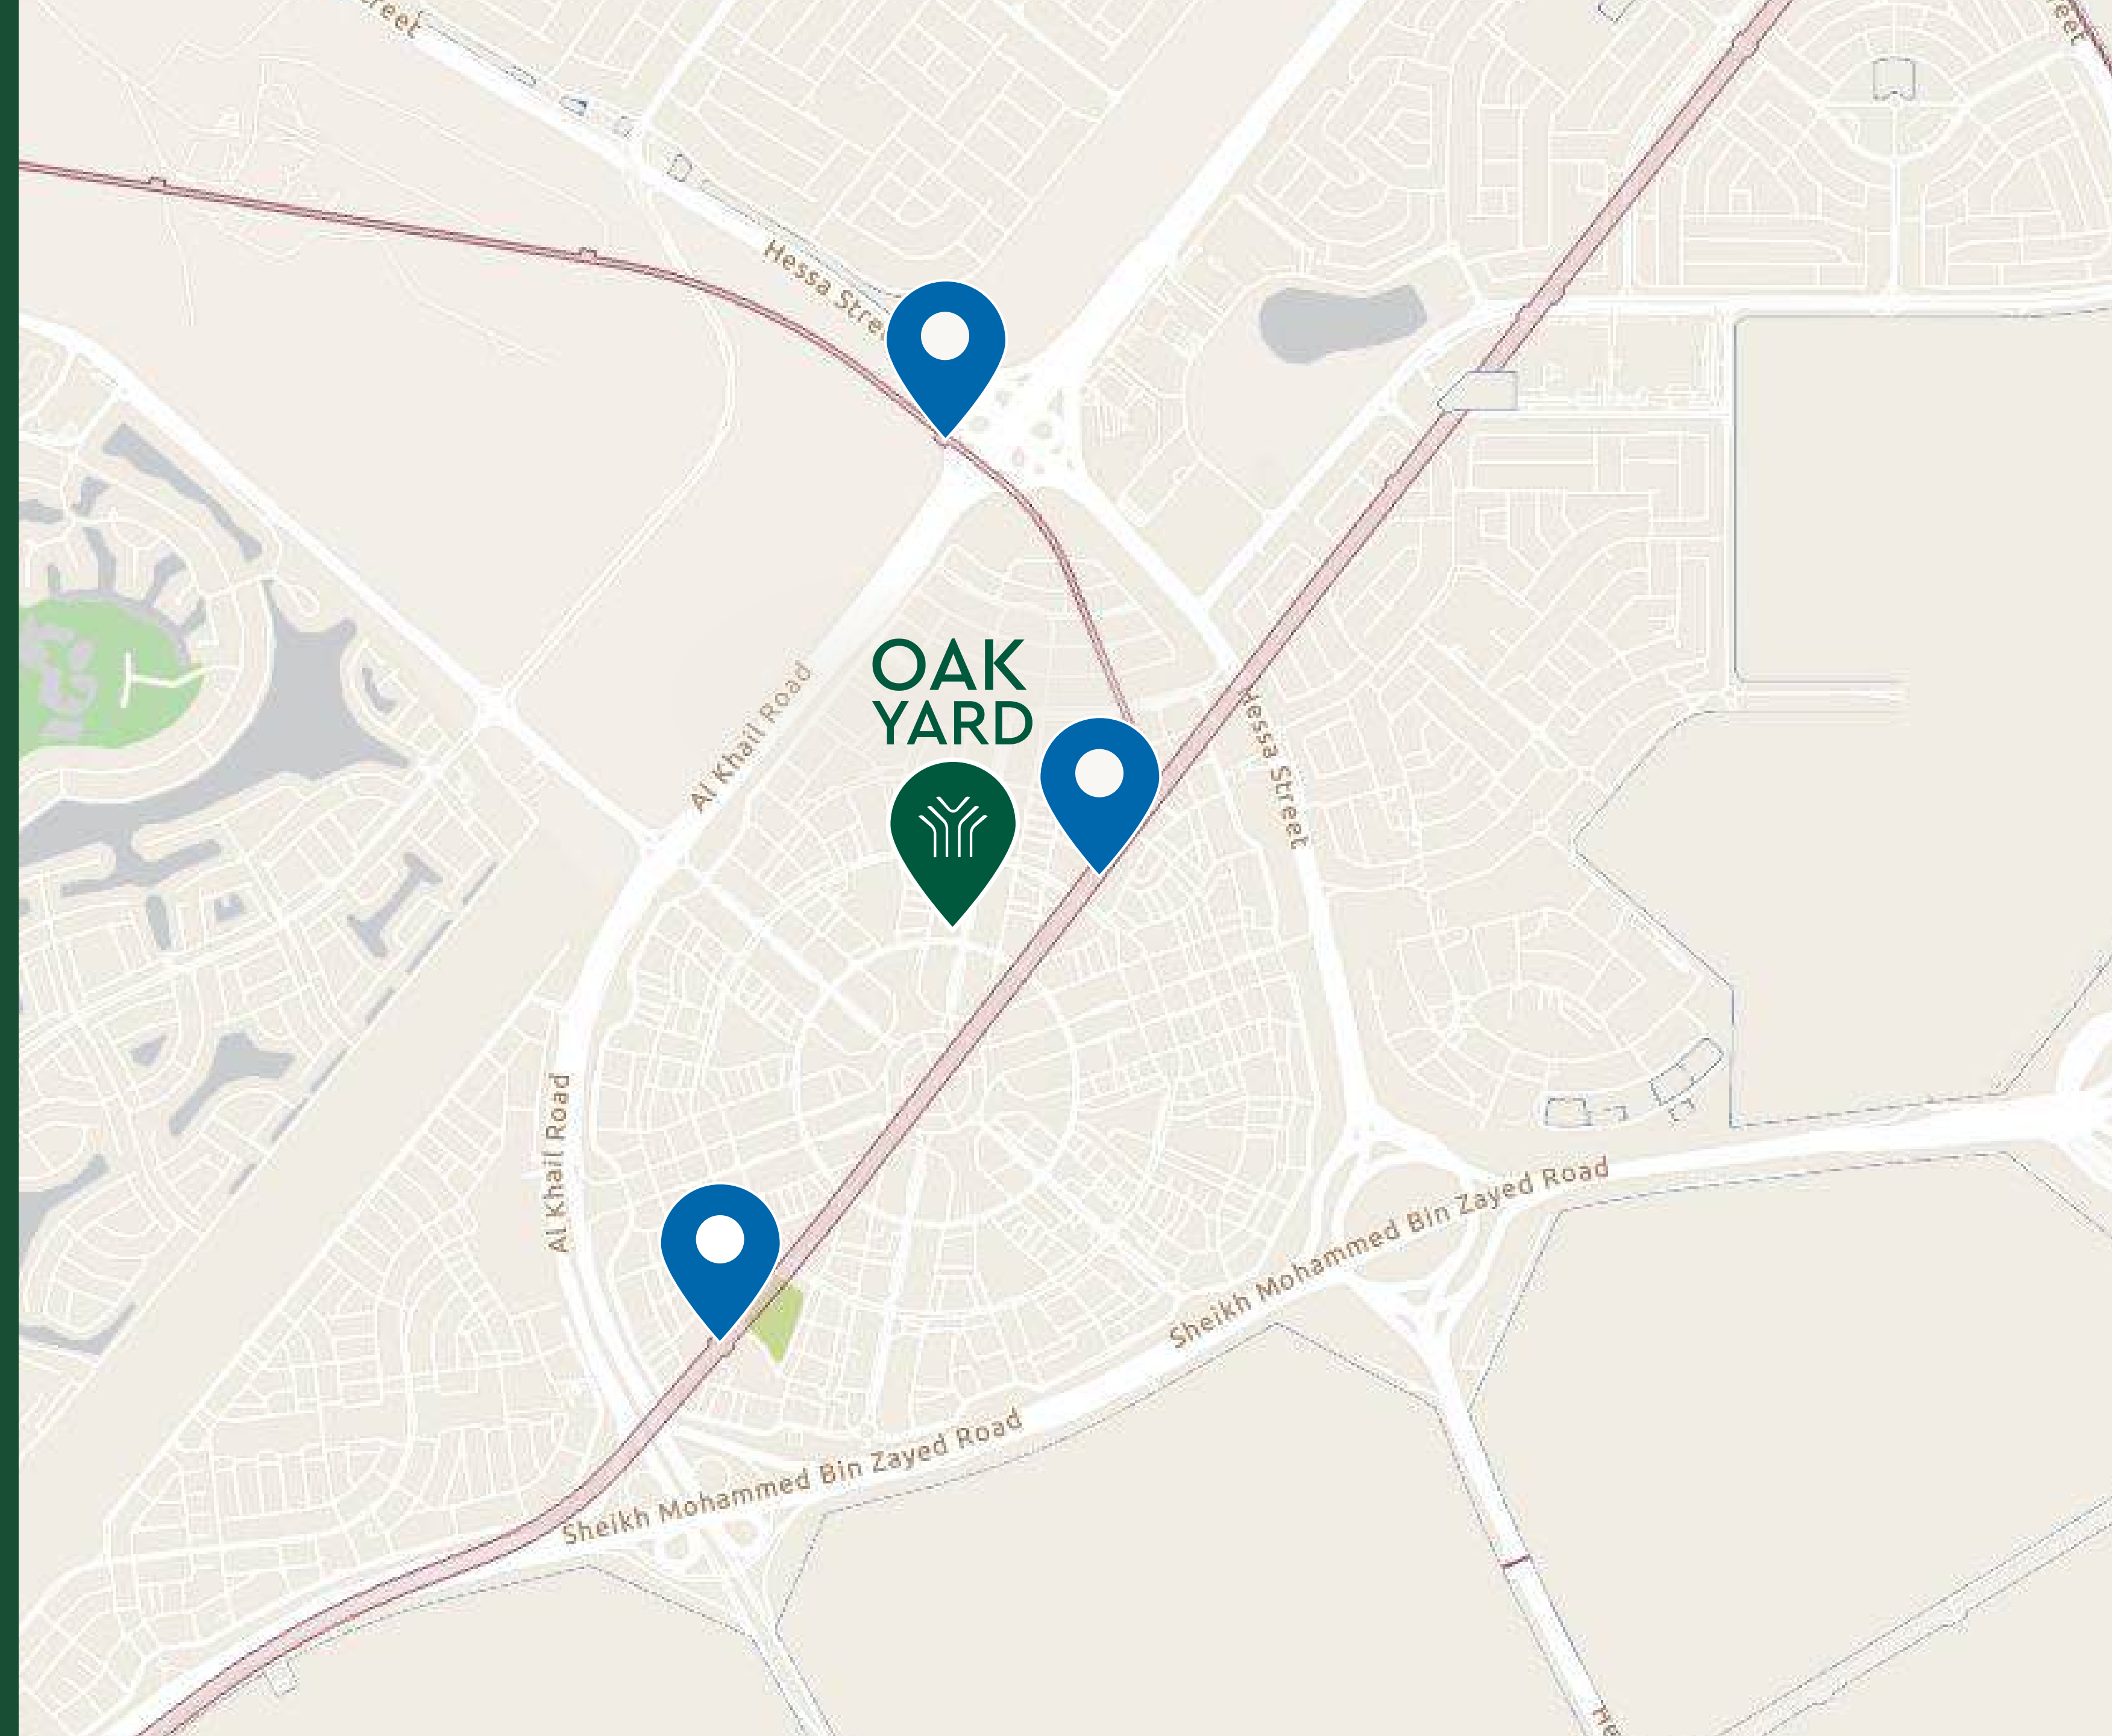

As part of Dubai's long-term urban infrastructure strategy, the city is working on the expansion of its metro network.

Among the directions currently being reviewed, JVC is included as one of the districts considered for a possible future metro line.

Although the exact route and implementation timeline have not yet been announced, the ongoing planning work in this direction indicates that JVC is viewed as an important area for a potential future metro station or line.

The introduction of a metro connection could significantly improve accessibility and enhance the district's long-term investment appeal.

This information is based on general urban planning concepts and publicly discussed development directions in Dubai.
